### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1-8 and 10-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1, 5 and 10 disclose a method, apparatus and storage medium in which a simulation is performed such that a conveying force corresponds to a difference between the second peripheral speed, which is associated with a non-contact region in which the pair of conveyor rollers do not contact each other, and a speed of the flexible medium when the flexible medium reaches the non-contact region, such that the flexible medium is conveyed at the first peripheral speed when the flexible medium reaches the contact region, in which the rollers do contact each other. These limitations, in combination with the other limitations in the claims, were not found in the relevant prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
